Hi Peter:

Perhaps it is just poor wording. We are trying to acknowledge that some employees will remain under ch 230 until we create a new system. However, before that new system is in place, we wanted to gain the flexibility to set salaries and give merit increases. This section was an attempt to exclude us from the portion of 230 that sets rules/limitations an salary and merit. Do we need to rethink our wording??

Lisa, I'm struggling with the new 37.15. I'll just ask you one question about it now: is the last sentence (i.e., (3) (b)) missing a verb? It reads, "The proposal for adjusting compensation and benefits for employees under ss. 230.12 (3) (e)."

Thanks, Peter. What will be our turnaround time after we get the draft?

Thanks for the additional changes and edits. We won't be able to produce another draft this weekend. I'm hoping that you'll have the next draft at some point Tuesday, but it'll probably be Wednesday. I think it's important to have the next draft looked at by our editors (they haven't seen it yet), and depending on what they find, the time frame may be extended.

My guess is we should have deleted them from 36 but were remiss in doing so. I believe we transferred all of that section over to the new 37, correct? If they have been transferred to 37, they should be deleted from 36.

Subject: Agreements with UWHCA

I'm confused about the agreements between the UW System and the UWHCA mentioned in 233.04 (7) and (7m). We're changing all the references in ch. 233 from board of regents to board of trustees. And we have language in the new 37.11 (1) (b), (28), (28m), and (29) about the agreements. But I don't think you have asked for the deletion of 36.11 (1) (b), (28), (28m), and (29). Have we missed that request or is there some reason for leaving those provisions as they are?

37. ?? Statement of Purpose and Mission:

The University of Wisconsin is the original University of Wisconsin, created at the same time Wisconsin achieved statehood in 1848. It received Wisconsin's land grant and became the state's land grant university after Congress adopted the Morrill Act in 1862. It continues to be Wisconsin's comprehensive teaching and research university with a statewide, national and international mission, offering programs at the undergraduate, graduate and professional levels in a wide range of fields, while engaging in extensive scholarly research, continuing adult education and public service.

The primary purpose of the university is to provide a learning environment in which faculty, staff and students can discover, examine critically, preserve and transmit the knowledge, wisdom and value that will help ensure the survival of this and future generations and improve the quality of life for all. The university seeks to help students to develop an understanding and appreciation for the complex cultural and physical worlds in which they live and to realize their highest potential of intellectual, physical and human development. It also seeks to attract and serve students from diverse social, economic and ethnic backgrounds and to be sensitive and responsive to those groups which have been underserved by higher education.

Lisa and Bob, I don't plan to include any of this state's history in the statutes. I'll put something in the bill file if you like.
